Test Administrators are required to read the Oregon-specific student test directions included in the Test Administration Manual verbatim to all students at the start of each test session. Per the “Language of origin translation of directions” non-embedded designated support in Section 2: Smarter Balanced of the Oregon Accessibility Manual, districts can choose to provide test directions in a student’s language of origin. ODE is providing these Smarter Balanced generic directions as a basis to assist districts in the translation of Oregon’s student directions found in Section 7.4: Student Directions for Smarter Balanced Administration of the Test Administration Manual (TAM). When translating student directions, districts must ensure that their translations exactly match the English version provided in the TAM. Spanish translations of the Smarter Balanced student directions are also provided in Section 7.4 of the TAM.
